## Brion Jeannette

### Jewish Architectural Wonders of the World

The Seven Great Wonders of the World all have one thing in common. They were designed by architects whose skill and imagination resulted in buildings that radically impacted their world. One of Orange County's most established and innovative architects, Brion Jeannette, will give you a professional insider's tour of the great Jewish architects, their designs, and their influence. You will meet the greats: Frank Gehry (Bilbao Museum), Michael Arad (Twin Towers Memorial) and Daniel Libeskind, (Jewish Museum Berlin). You will also be introduced to the forgotten Jewish Architects of the Bauhaus School, who fled to Israel during World War II and designed the look of modern Israel.

Brion Jeannette is an internationally acclaimed architect and president of Brion Jeannette Architecture. He is known for his unique designs, including the Aliso Rock House, Portabello, and the Gucci-Villa Camello to name just a few. Brion has always been ahead of the curve with his commitment to environmentally sensitive designs and cutting-edge technology.

Choose this dinner and enjoy insight from an architectural master and meet some of the most remarkable, profound, and spiritual buildings in the world.
